

# WELCOME TO YANKO GIN

Welcome to YANKO GIN, the latest venture by 7Hills, nestled in the heart of Montenegro's pristine landscape.

# Our story

---

The story of YANKO GIN begins in the historic region of Jankovića Krš, where 7Hills acquired a pristine portion of land to develop an eco-friendly project, nestled on the border of Skadar Lake National Park. As we embarked on this journey to create a sustainable haven, we discovered the land's hidden treasures: wild juniper trees and a variety of botanicals, including rosemary, lavender, wild mint, and wild pomegranate.

These native ingredients inspired us to create a unique line of spirits and liqueurs that capture the essence of our land

## Heritage and tradition

---

YANKO is inspired by the name Janković, a name that represents both the family and the land. For over 500 years, the Janković family has cared for and nurtured this territory, preserving its natural beauty and heritage.

This deep-rooted connection to the land is the foundation of Yanko, embodying the spirit and tradition of Montenegro in every bottle.

## A Modern Distillery with a Historical Soul

---

We produce our gin at our 7hills distillery in Podgorica, utilizing the latest technology.

Our state-of-the-art still from Desa Subotica features two distillation columns, allowing us to create a premium quality London Dry Gin.

7 HILLS Destillery is located in Podgorica:  
Masline 64 E65 .

## From Land to Bottle

---

The abundance of juniper trees in Jankovića Krš and the village near Žabljak inspired us to create a London Dry Gin. With our team of experts, we have developed three unique gin formulas, incorporating botanicals sourced directly from our land.

## Yanko: The Spirit of Montenegro

---

YANKO - The very first  
Montengerin Premium Gin.

Our black bottle's sleek and powerful design embodies the essence of the name Montenegro, symbolizing the bold and majestic "Black Mountain" that stands as a testament to strength and heritage.
